F´ Ecosystem

Jet Propulsion Laboratory
California Institute of Technology

Community

https://github.com/nasa

- NASA Organization
  - F Prime
  - FPP
  - Tools
- Critical functionality of F Prime
- Used by all projects
- Maintained by core team

https://github.com/fprime-community

- F Prime Community Organization
  - Platform Support
  - F Prime Libraries
  - Additional Tools
- Used by some projects
- Maintenance depends on repo

F´ Governance

Community
Use Product; Provide Contributions

Community Managers
Execute the Decisions

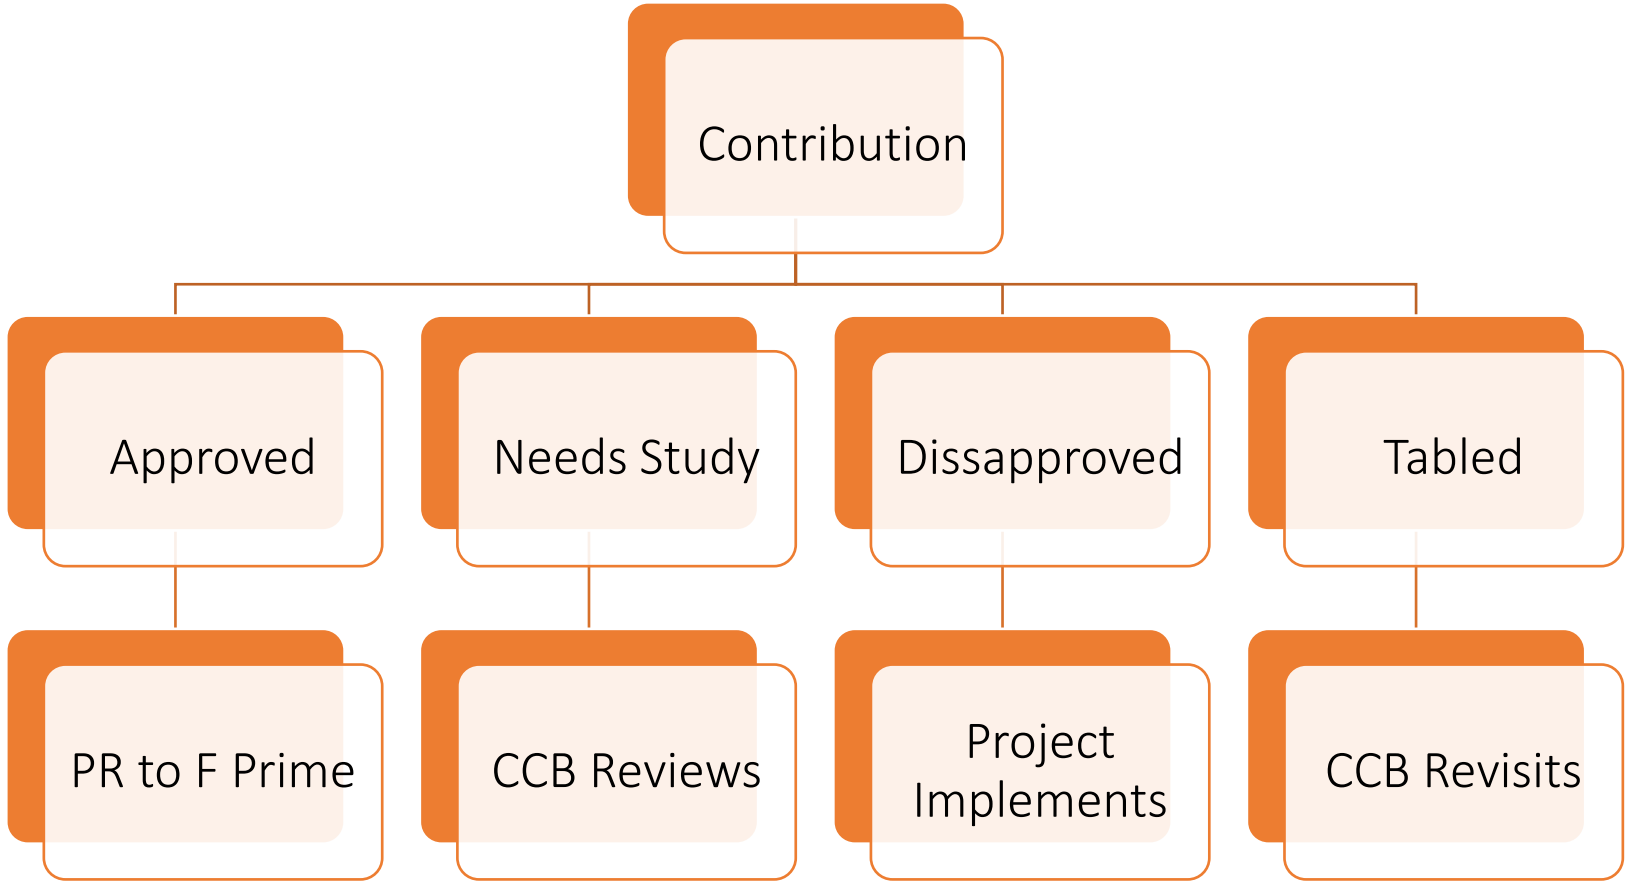

Change Control Board
Make Decisions for Community

- The Change Control Board (CCB) is responsible on making decisions on behalf of the community.
- The CCB meets bi-weekly, taking input from the community and subject matter experts.
- The Community Managers execute these decisions.

F´ and NASA / JPL

NASA / JPL contributes feature requests, the CCB reviews them, and NASA / JPL provides developers to work on them based on the CCB decision.

Accepting Contributions

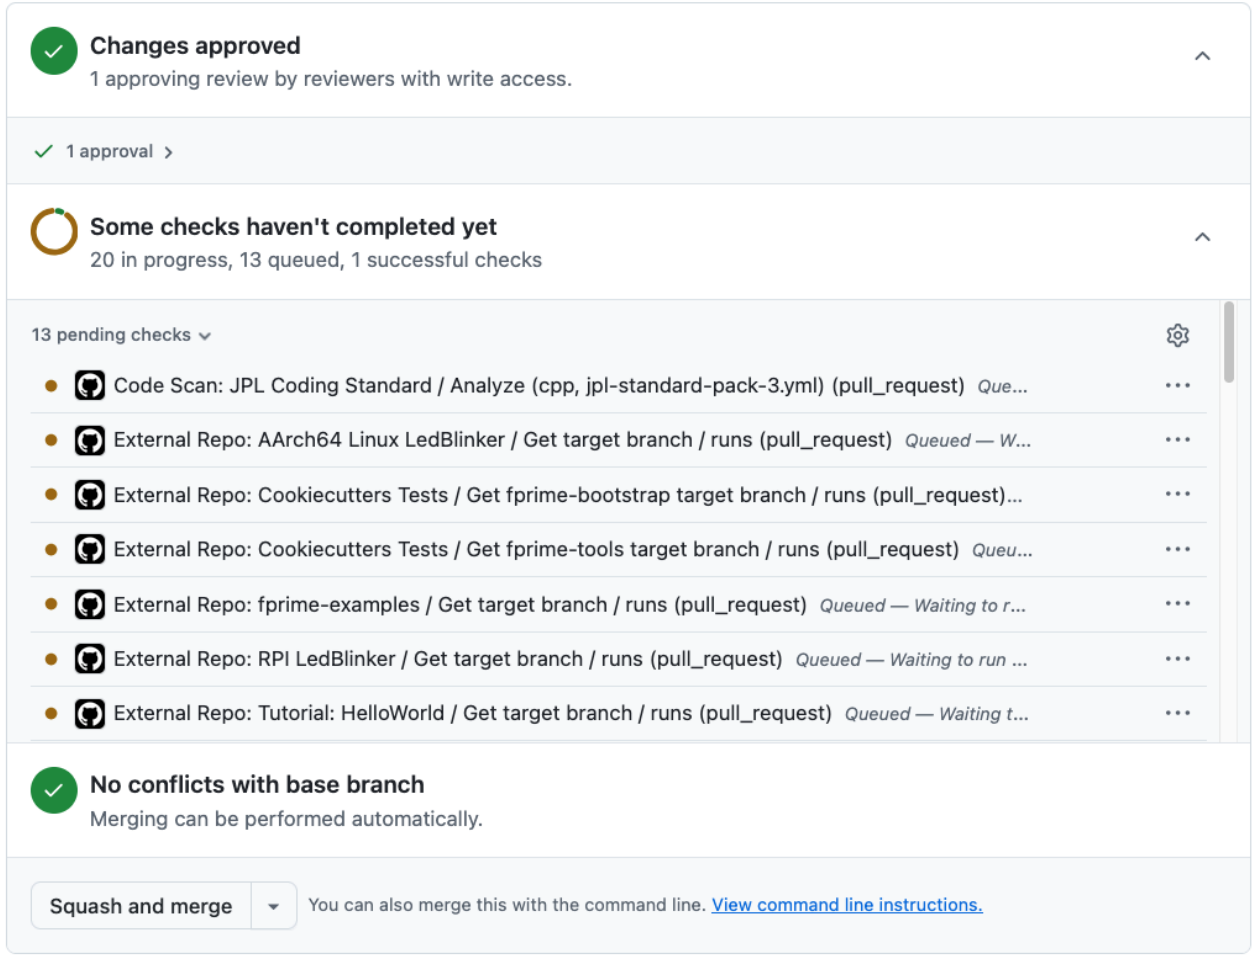

Concept CCB Automated Testing Expert Review

All contributions to the F´ product line are approved via a change control board (CCB), run through a comprehensive set of automated tests, and finally reviewed by a subject matter expert before merging into the product line.

Contribution Testing

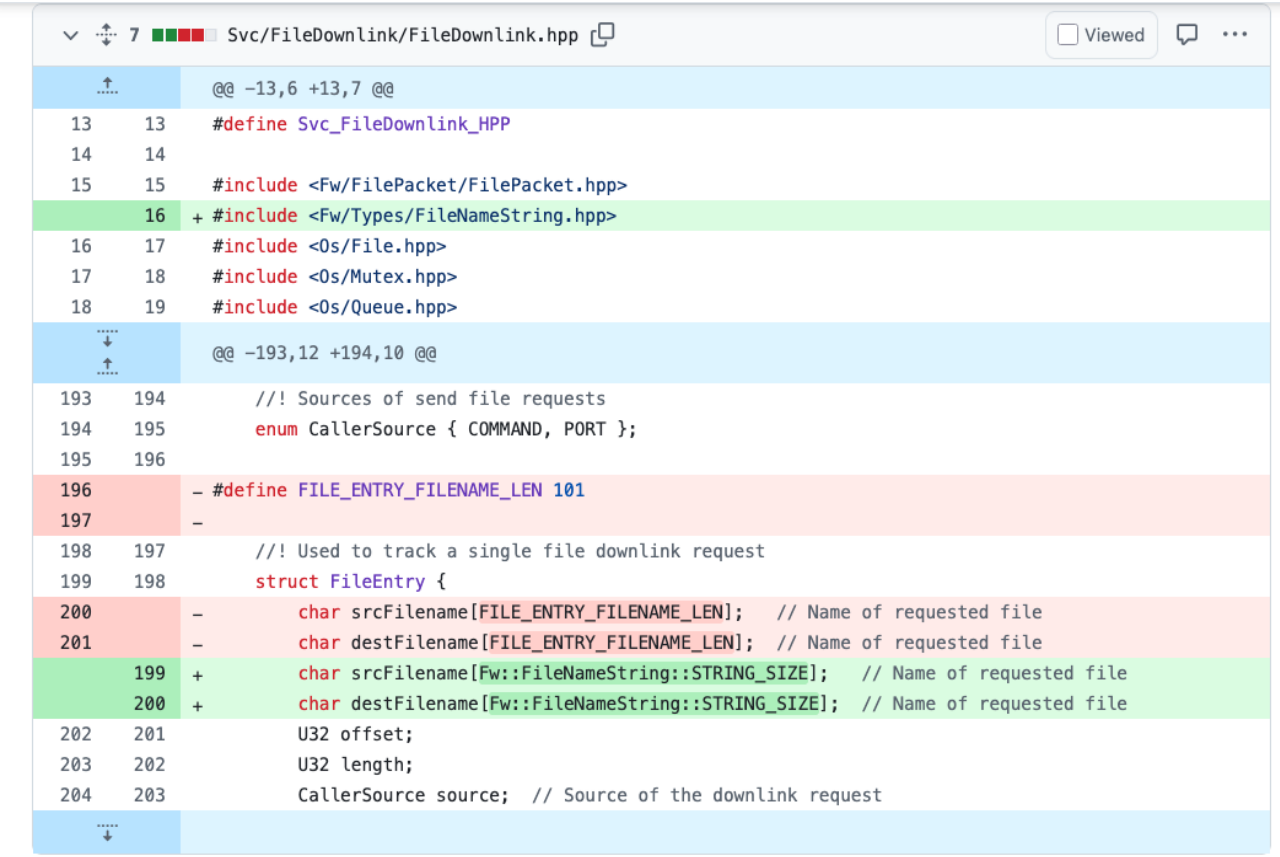

- Contributions to NASA F Prime are tested via Continuous Integration (CI)
- Contributions must pass all CI tests to be accepted
- Please correct CI issues
- Ask for assistance if necessary

Copyright © 2026 California Institute of Technology. Government sponsorship acknowledged.

Contribution Review

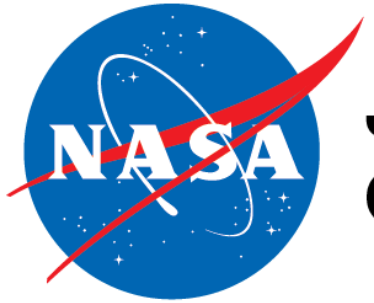

- Contributions to NASA F Prime are peer-reviewed
- For efficiency, reviews are performed after CI passes
- Please respond to review feedback
- Ask for assistance if needed
